

Monthly Meeting and Educational Program

Tuesday, October 13, 2009 - 7:00 AM

Applying GeoExchange in Hot Climates

Speakers: **Cary Smith**, CGD, CEM, CEA, President, [Sound Geothermal Corporation](#)
Pat Schueppert, Superintendent, Burke and Associates

Cary Smith is a founding partner and CEO of Sound Geothermal Corporation and has over 35 years of experience in the fields of energy consulting, exploration and development, and energy systems design. Sound Geothermal has been a pioneer in the development and design of hybrid GeoExchange systems throughout the western United States. He will discuss the use of GeoExchange hybrid systems to heat and cool buildings in Southern Nevada. Part of the presentation will include basic design and the expected energy efficiency of this type of system. Cary will cover multiple projects and show how Geothermal system can be used in a variety of projects. Pat Shueppert, superintendent for Burke and Associates, will add closing comments on how GeoExchange works in the Cashman Equipment project.

Where: **Springs Preserve**,
333 S. Valley View Blvd., Las Vegas, NV ([map & directions](#))
