

Scott McKeag, CEM
Drilling Program Manager

As Eagle continues to grow, so does the challenge is to assemble the most talented team of experts. Not only do we need localized experience in Nevada, Utah and Arizona but we also want a person with industry knowledge exceeding that of the typical professional.

Eagle is excited to have finally found that person, Scott McKeag. With his knowledge of the drilling industry and his environmental background, Scott is a perfect fit for our Eagle team.

As the Drilling Program Manager, Scott is responsible for the overall supervision and coordination of all resources provided by Eagle within their program. Scott is proactive about developing systems and methods of sharing personnel and resources within the company. He assures that all services within the program conform to the commitments the firm has made to the client, that the projects are technically sound, and that they are completed on time & within budget.

After meeting Scott, we are confident that you will share our excitement in welcoming him to the Eagle team.
